Functional cookies

Name	Validity	Goal
ASP.NET_SessionId	Until after the first visit to the website	This cookie is used to maintain your visit to the website in an anonymized user session with the server
CMSCookieLevel	After one year you will be asked to accept this cookie again.	On your first visit to our website, we ask you with a banner at the bottom of the page whether you want to accept the cookies. We save your choice in a cookie, so that we do not have to ask you this question again next time
CMSPreferredCulture	After one year you will be asked to accept this cookie again.	This cookie is used by our website to identify in which language and country code a page on the website is viewed.
CurrentContact	After 50 years you will be asked to accept this cookie again.	This cookie is used to distinguish visitors to the website via a globally unique identification number (the GUID). In this way we can follow you as a visitor and ensure that we can show the shopping cart with the product you ordered.

Analytical cookies

Name	Validity	Goal
ai_user	After one year you will be asked to accept this cookie again.	This is a unique user identification cookie that allows to count the number of users accessing the application over time. This cookie can also be used to solve technical problems with the website.
ai_session	After one year you will be asked to accept this cookie again.	This cookie is a unique anonymous session identification cookie and detects whether you visit our website with multiple browser screens (sessions). This cookie is used to provide insight into the performance of the website to improve it.
_ga	After two years you will be asked to accept this cookie again.	This cookie is used for anonymously tracking your surfing behavior on our website. Each page visit is recorded and is used to calculate

		visitor, session and campaign data for the visitor flow analysis reports on our website.
_gat_UA-4862819-63	10 minutes	This cookie is used to limit the number of 'hits' to Google Analytics. A double click on a page could result in polluted data in Google Analytics. This cookie prevents that.
_gid	After 24 hours of inactivity, you will be asked to accept this cookie again.	This cookie is used to anonymously track your browsing habits on our website. With this cookie, we distinguish you as a unique user by assigning a randomly generated number for customer identification. Each page visit is recorded and is used to calculate visitor, session and campaign data to calculate visitor flow analysis reports on our website.
_hjIncludedInSample	After one year you will be asked to accept this cookie again.	This cookie is used for anonymously tracking your surfing behavior on our website. With this cookie we can monitor you as a visitor to the website with the aim of analyzing whether you have been able to consult the correct information.
_hjSession/ hjSessionUser	After one year you will be asked to accept this cookie again.	This cookie is used for anonymously tracking your surfing behavior on our website. With this cookie we distinguish you as a unique user by assigning a randomly generated number for customer identification. This ensures that your surfing behavior is attributed to the same user ID on subsequent visits to our website. Each page visit is recorded and is used to calculate visitor, session and campaign data for the visitor flow analysis reports on our website.
_pk_id	1 year	This cookie collects statistics about the user's visits to the website, such as the number of visits, average time spent on the website and which pages were read
_pk_ses	30 minutes	This cookie is a unique anonymous session identification cookie and detects if you visit our website with multiple browser screens

		(sessions). This cookie is used to provide insight into the performance of the website with which it can be improved.
_pmms_privacy	After one year you will be asked to accept this cookie again.	Stores visitor consent for data collection and use.
_stg_last_interaction	After one year you will be asked to accept this cookie again.	**About:** Indicates whether the last visitor's session is still running or if a new session has been started. **Value:** The timestamp of the visitor's last interaction with the site.
_stg_returning_visitor	After one year you will be asked to accept this cookie again.	**About:** Indicates whether the visitor has been to your site before - is it a returning visitor. **Value:** The timestamp of the last time the visitor interacted with your site.
_stg_traffic_source_priority	30 minutes	**About:** Stores the type of traffic source from which the visitor came to the site. **Value:** 1. Direct 2. Referral 3. Social Media 4. Organic search campaign
_taj	After 14 days you will be asked to accept this cookie again.	This cookie is used to track its progress when you complete a survey. This cookie stores your answers in case you don't complete the survey in one go and is deleted once all questions in the survey have been answered by the user.
_tmc	After 14 days you will be asked to accept this cookie again.	This cookie is used to distinguish users from each other and to keep track of the so-called opt -in status. With an opt -in, you as the owner of an e-mail address have explicitly and

		demonstrably given permission to receive emails from a certain mailing list. With this cookie we keep track of its status.
